

Hörmann Educational Tour 2024

The February 4Ddoors had the privilege of participating in another fantastic Hörmann Educational tour in Germany. It was the perfect opportunity to understand Hörmann's state-of-the-art manufacturing and production capabilities.

This provided both 4Ddoors and our partners the opportunity to watch their doors being manufactured, and delivered, a full circle moment. The engineering, the quality and the scale was inspiring.

The highlight was having the opportunity to assemble our own motors in the Burner factory in Ludenscheid! We can't wait to do it again in 2025!!

THE CREW

4Ddoors and participating national partners.

THE TOUR

Locations included, Hörmann Eckelhausen, Brockhagen, Dissen, and Ichterhausen.

THE PRODUCTS

We were introduced to the new range of ALRF42 Sectional Door Finishes, including Natural Reflect.

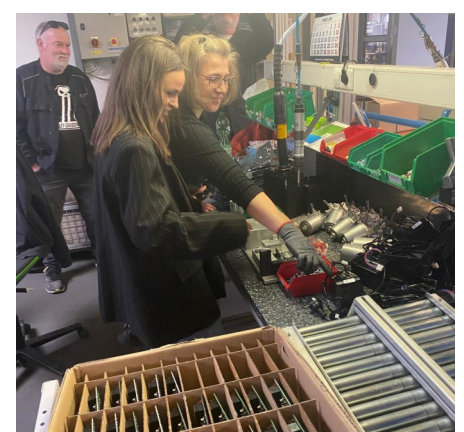

MORE PRODUCTS

4Ddoors LPU42 Sectional Garage Door with Custom Printing.

EDUCATION

The 4Ddoors team added to their ever increasing automation and programing knowledge .

OUR TURN!

We even had the opportunity to participate in assembling our own motors at Berner!
